

Please do not change Indiana's Telephone Privacy law to benifit the Consumer Bankers Association (CBA). It is nice not being bothered 3-4 times each day with people trying to sell you something over the telephone. It is bad enough that I am constantly editing out unsolicited email on a daily basis from people I don't even know.

I could share stories with you, if you are interested, but I am sure you have already heard all of them. Thank You.

Jim L White
